

Workshop Recommendations 2010

Shelly Vorster (Owner, Urban Harmony)

“Patricia brought life to the business agenda; her enthusiasm and real-life experience together with in-depth insight and applied knowledge made her lectures on various business topics insightful, engaging and allowed us as students to walk away with practical tools and a framework to apply to our own businesses. She took time to understand the position of every student and was adaptable and flexible in her examples to ensure the course work was relevant and applicable to each of us. I would recommend Patricia to any budding entrepreneur and or business owner as she takes a keen interest in supporting her student’s efforts each step of the way.” July 26, 2010

Miranda Waugh (Owner, Ask Auk)

“The first of Patricia’s courses I attended, “Selling your Services With Confidence”, inspired me to sign up for the rest of her courses and to extract every piece of business knowledge I could from her extraordinary brain. Patricia took the time to discover the background of all her students and tailored the content of the day to suit their collective needs. Patricia is intuitive, intelligent and inspirational. She gets straight to the heart of a business, quickly identifying salient points and helping to develop a clear, achievable action plan. I would recommend Patricia as a tutor and as a business coach to anyone.” July 27, 2010

Daniel Doherty

“I was fortunate enough to have had Patricia as a tutor twice now under www.Roehampton.ac.uk/creativefutures courses. She was excellent at getting to the heart of the matter, giving clear and useful advice. I would say she challenged and pushed everyone in the class. It was obvious to us all that she knew her material and would be a great help to any small businesses, charities, schools and individuals who were lucky enough to hire her. I have no hesitation in repeatedly recommending Patricia as shown by numerous friends and colleagues who keep presenting themselves for the excellent courses she is running. I think she would be an excellent Oracle for any business that wants to avoid the pitfalls and head straight for success. The 2 courses were <http://roehampton.ac.uk/creativefutures/courses/personal-development/setting-up-and-running-your-own-business.html> and <http://roehampton.ac.uk/creativefutures/courses/personal-development/selling-your-services-with-confidence-2day.html>” July 26, 2010

Anna Murrell (Owner, Pink Matters)

“I attended a number of workshops run by Patricia Wilson and found each one to be extremely impactful and highly beneficial. I arrived with some uncertainty about how to take my business concept forward... yet after just one day’s workshop with Patricia I was amazed to find that I walked away with real clarity, a huge level of motivation and the sense that someone completely understood the unique needs of my business. How invigorating! Combining an expert knowledge with her unique ability to reach out to her audience, she offered invaluable advice and tailored practical support. I would not hesitate to recommend Patricia to anyone who owns a business and wants to make it a success!” July 26, 2010

Lorna Sylvestre

Senior Account Manager, Digital Jigsaw (business partner)

“Where to start...? Patricia is simply wonderful. I was fortunate enough to have done 3 courses with Patricia (and time allowing I would do more) Each session left me feeling inspired and with a new thirst to find out more about business. Patricia’s own story is a true testament to once one door closes another WILL open. Her business advice is more valuable than most text books because she has ‘lived’ it and is able to anticipate the possible problems ahead to starting and setting up your own business.” July 26, 2010

Bieneosa Ebite (Owner, Bright Star PR)

“I attended one of Patricia's business workshops, which turned out to be an excellent decision! Patricia's expertise in delivering sound business advice was evident in her style of teaching, which was relaxed, interactive and open. Patricia was able to quickly gain a rapport with everybody in the classroom and importantly, I left the day with a solid plan of action and enhanced motivation. I would not hesitate in recommending Patricia as a tutor or business coach and look forward to attending another one of her sessions in the future.” August 12, 2010
